EXECUTIVE LEADERSHIP PROFILE

Thai Environment Development (TED) Group

Mr. Banluesakdi Apimahadumrongkul

President, Thai Environment Development (TED) Group

Core Domain:	International Finance, Global Banking, Heritage Asset Funds & Macroeconomic Infrastructure
Banking & Asset Heritage:	20 Years across Tier-1 Global Banks + 15 Years in Old Chinese Asset Heritage Funds / Family Office
Corporate Entities:	Operating Companies established in **Thailand • Hong Kong • United Kingdom • Dubai (UAE) • Switzerland**

EXECUTIVE OVERVIEW

Mr. Banluesakdi Apimahadumrongkul is an accomplished international finance executive, cross-border capital structurer, and global banking specialist with extensive multi-decade institutional experience. Prior to leading Thai Environment Development (TED) Group, he completed a distinguished 20-year career within three of the world's tier-1 international banking institutions—**Citibank** (15 years), **Standard Chartered Bank** (3 years), and **HSBC Bank** (2 years).

Complementing his institutional banking tenure, Mr. Banluesakdi has dedicated **15 years to the governance, preservation, and strategic monetization of Old Chinese Asset Heritage Funds and private family heritage wealth trusts**. In this capacity, he has advised and managed complex multi-generational sovereign-linked assets, historical monetary instruments, and institutional custody mechanisms connecting historic Asian wealth with modern global financial clearing systems.

Under his leadership as President, TED Group operates as an integrated multinational enterprise through fully incorporated corporate entities across premier global financial hubs: **Thailand, Hong Kong, the United Kingdom, Switzerland, and the United Arab Emirates (Dubai)**, bridging global capital markets with large-scale industrial projects and energy commerce.

CAREER CREDENTIALS & INSTITUTIONAL FINANCIAL EXPERIENCE

Institution / Asset Domain	Tenure	Scope of Practice & Strategic Focus
Old Chinese Asset Heritage Fund & Family Office	**15 Years**	Specialized leadership in ancestral estate capital preservation, historical Chinese asset monetization, safekeeping and custody verification, Depository Trust Company (DTC) alignment, and modernizing legacy wealth into active liquidity.
Citibank	**15 Years**	Primary institutional foundation in global corporate banking, cross-border payments, international liquidity architecture, risk engineering, and multi-currency commercial operations.
Standard Chartered Bank	**3 Years**	Expanded competencies across international trade finance networks, emerging-market syndications, credit facilities, and cross-border commercial transactions across Asia and Europe.
HSBC Bank	**2 Years**	Procedural mastery in international correspondent banking, regulatory compliance, global asset operations, and complex institutional clearing systems.

CORE AREAS OF TECHNICAL EXPERTISE

1. Old Chinese Heritage Asset Funds & Family Wealth Architecture

- **Asset Verification & Safekeeping:** Proven expertise in verifying, authenticating, and legally structuring historical assets, legacy bonds, and heritage wealth trusts under international law.
- **Monetization & Bridge Structuring:** Modernizing illiquid historical family holdings through structured bank instrument monetization, ledger-to-ledger integration, and non-depository credit facility establishment.

2. Global Financial Infrastructure & Interbank Banking Architecture

- **Interbank Messaging Protocols:** In-depth operational fluency in SWIFT Network protocols, SWIFT gpi (Global Payments Innovation), Bank-to-Bank Financial Messaging, Server-to-Server (S2S), and Ledger-to-Ledger (L2L) architectures.
- **Custody & Settlement Protocols:** Comprehensive understanding of Depository Trust Company (DTC) clearing protocols, institutional asset verification, and monetary aggregate structures (M0, M1, and Global Funds).

3. International Banking Instruments & Trade Finance

- **Credit Enhancement & Collateral:** Structuring and advising on Standby Letters of Credit (SBLC), Demand Bank Guarantees (BG), Medium-Term Notes (MTN), and Documentary Letters of Credit (DLC/LC).
- **Teletransmission Standards:** Advanced execution of SWIFT MT700, MT760, and MT799 under ICC rules (UCP 600, ISP98, URDG 758).

4. Mega Project Finance & EPC Infrastructure Investment

End-to-end financial engineering for multi-billion-dollar sovereign-scale projects and Engineering, Procurement, and Construction (EPC) ventures. Orchestrating capital syndications and risk mitigation connecting project sponsors, sovereign funds, commercial lenders, and international contractors.

GLOBAL CORPORATE NETWORK: TED GROUP ECOSYSTEM

TED Group operates through established, legally incorporated corporate entities across key jurisdictions to ensure seamless regulatory compliance, liquidity connectivity, and trade execution:

Jurisdiction / Hub	Corporate Presence	Strategic Scope & Mandate
Thailand	Corporate Headquarters **Company**	Strategic corporate management, regional energy project development, and Southeast Asian operations.
Hong Kong	Asian Corporate Entity **Company**	Commercial trading gateway, regional treasury operations, and Asian investment connectivity.
United Kingdom	European Corporate Hub **Company**	Liaison with London financial markets, English-law legal structuring, and European trade syndications.
Switzerland	Swiss Corporate / Wealth Desk **Company**	Private banking relationships, institutional wealth coordination, commodity trade finance, and escrow protocols.
Dubai, UAE	Middle East Regional Entity **Company**	Gateway to MENA & GCC capital markets, global energy trade logistics, and cross-border investment flows.

KEY BUSINESS SECTORS & PROJECT SCOPE

1. **International Energy & Commodity Trade:** Global trade facilitation of bulk energy products, refined petroleum fuels, Liquefied Petroleum Gas (LPG), and industrial materials.
2. **Heritage Asset Management & Liquidity Creation:** Transforming legacy heritage trusts into operational capital for real-economy investments.
3. **Capital Formations & Investment Structuring:** Aligning private and institutional equity with viable industrial and macroeconomic ventures.
4. **Structured Banking Transactions:** Structuring bank instruments to guarantee trade payments, unlock working capital, and de-risk major ventures.
5. **EPC Project Development:** Financial structuring and execution oversight for clean energy, industrial manufacturing, utilities, and infrastructure projects.

EXECUTIVE VISION STATEMENT

VISION & MISSION

"To bridge international capital markets, heritage wealth assets, and emerging industrial ecosystems; utilizing world-class banking standards, structured financial instruments, and transparent governance to unlock transformative economic growth, infrastructure expansion, and sustainable societal prosperity."
